PROFESSIONAL SUMMARY

Computer Engineering graduate working as a Project Coordinator, bridging technical execution and business strategy. Experienced in agile delivery, stakeholder management, and translating complex requirements into actionable plans — driven by the belief that great products live at the intersection of people, process, and purpose.

EXPERIENCE

CODEXALTERS TECHLABS | PROJECT COORDINATOR
Oct 2025 -- Present

- Tracked tasks, risks, and dependencies across teams to ensure timely delivery and clear visibility into project health.
- Ensured alignment on priorities through regular coordination meetings, progress reporting, and structured documentation of blockers and decisions.
- Facilitated sprint planning and review sessions, improving team velocity and delivery cadence across concurrent projects.
- Bridged technical and non-technical stakeholders, translating product requirements into well-defined task assignments and acceptance criteria.

INTEGERS: BEYOND THE DECIMAL POINT | OPERATION LEAD
Oct 2024 -- Mar 2025

- Mapped departmental workflows via stakeholder interviews and analyzed operational data in Excel to surface key KPIs for leadership decisions.
- Served as BA point of contact on client projects, driving requirement gathering, scope alignment, and workflow documentation.

ORSCOPE TECHNOLOGIES | PROJECT MANAGEMENT INTERN
Mar 2024 -- Sep 2024

- Coordinated 3 active projects in Trello — managed agendas, tracked deliverables, and synthesized insights from 15 stakeholder interviews.
- Facilitated Scrum touchpoints, synchronized backlogs, clarified dependencies, and contributed A/B testing analysis via Google Analytics.

PROJECTS

NIYOPLAN -- PROJECT MANAGEMENT APP
Next.js 15, React 19, Supabase, Tailwind CSS, Docker

- Full-stack multi-tenant PM app with Kanban, Gantt, sprint/backlog, and goal-tracking views — deployed on Vercel with Supabase PostgreSQL.
- Integrated Groq AI tooling, Google Drive attachments, and a personal Today view; containerized with Docker, tested with Vitest.

MEXAR -- MULTIMODAL EXPLAINABLE AI & REASONER
Python, FastAPI, React, Vercel, Hugging Face

- RAG-based agent platform with hybrid semantic/keyword search, cross-encoder reranking, and faithfulness scoring to minimize hallucinations.
- Multimodal input (audio via Whisper, image via Vision), inline source citations, and domain guardrails; deployed on Vercel and Hugging Face.
